REGISTER
OF THE COMMISSIONED AND WARRANT OFFICERS
OF THE
NAVAL MILITIA
OF THE UNITED STATES

JANUARY 1, 1910

WASHINGTON
GOVERNMENT PRINTING OFFICE
1910

N O T E .

This Register, the first of its kind along these lines, is published for the benefit of all concerned. It is the department's plan to publish such a Register annually. This copy is deficient in data in some particulars. Where the data was lacking, that fact is indicated by a dash (—). It is also the intention of the department to improve and enlarge the Register from time to time as additional data suggests itself. For instance, when proper competitive target practice has been held by all or a sufficient number of the organizations the order of merit of the gun pointers will be published in the Register. The department has also in contemplation a brief history of the organizations in the Spanish war, with the record of each officer who took part. Only by a conscientious and pains-taking assistance on the part of the officers of the organizations can the data for the Register be made satisfactory; and in publishing this edition in its rather incomplete condition it is believed the officers will better understand the requirements in the way of data for the next year's edition.
